There has been some unimportent skirmishing about Manassas, with guerrillas, The Eastern Virginia legislature has adiourned without cleeting a United States Senator to fill the vacancy-occasioned by enlisted and are going home for 30 days, the death of Senator L. J. Bowden.

Quite an interesting debate in the rebel congress is reported on the subject of conscription, and the bill is reported to have passed with an amendment exempting with our feelings, for we have become so farmers and planters upon their giving an accustomed to moving about that camp additional tenth of their supplies for the life soon becomes tiresome, particularly use of the army. Another bill was passed when all our time is occupied in grubbing impressing all free negroes between the ages of 18 and 50 to work on the fortifica-

They' began with twenty-five cent checks, and finally ran up to ten dollars, which large strike led to their arrest. On examination, a quantity of stolen goods were found in their possession. The La Crosso Republican says: "Major Gen. Washburn is expected to arrive at La Crosse, from Texas, in the course of two or three days. Col. Robinson, of the Iron Brigade, is at Sparta. Lt. Col. Mr. Seward concurs in the opinion expressed by Gon. Pope, that those Indians should either be restrained from making hostile incursions into United States territory, or United States troops should be allowed to pursue, subdue and

disperse them. Lord Lyons raplies, January 22, 1864, to the lefter of Mr. Seward, as above, by saying that it, with inclosures, has been transmitted to his government, by whom they will not fuil to be immediately taken into careful consideration. In respect to the above matter, General

Pope says that the English government has no force in that region to control these Indians or restrain them from making depredations upon our settlements. They are affording these Indians protection and they are well worthy the name of vetesubsisting them during the winter, when rans. otherwise they would starve or be forced to surrender. Thus they will be enabled in the spring to resume depredations on our frontier, with a safe refuge always across the British line.

A New Use .- Crinoline has been put to a new use in Australia. At Wagga Wagga the telegraph wire broke, and there being no other suitable material at hand for repairing it, a lady kindly lent her crinoline, which, being dissected and used to tie the electric wire together, enabled the operators to use the line.

THE NEWS.

There has been some unimportant skirmishing about Manassas, with guerrillas. The Eastern Virginia legislature has adjourned without electing a United States Sonator to fill the vacancy occasioned by the death of Senator L. J. Bowden.

Quite an interesting debate in the rebel congress is reported on the subject of conscription, and the bill is reported to have passed with an amoudment exempting farmers and planters upon their giving an additional tenth of their supplies for the use of the army. Another bill was passed impressing all free negroes between the ages of 18 and 50 to work on the fortifica-

THE SIOUX AND THE BRITISH .- The President somo days ago, sent a message to the Sonate, covering a communication from Secretary Seward and Gen. Pope, respecting the Sioux Indians, who (says the former,) "committed murders and depredations in Minnesota in 1862, and have taken refuge in the British pessessions north of that State, and are fed by authorities." Mr. Seward concurs in the opinion expressed by Gen. Popo, that those Indians should either be restrained from making hostile incursions into United States territory, or United States troops should be allowed to pursue, subdue and disperse them.

Lord Lyons raplies, January 22, 1864 to the letter of Mr. Seward, as. above, by saying that it, with inclosures, has been transmitted to his government, by whom they will not fuil to be immediately taken into caroful consideration.

In respect to the above matter, General Pope says that the English government has no force in that region to control these Indians or restrain them from making depredations upon our settlements. They are affording these Indians protection and subsisting them during the winter, when otherwise they would starve or be forced to surrender. Thus they will be enabled in the spring to resume depredations on our frontier, with a safe refuge always across the British line.

FROM EASTERN VIRGINIA.

WASHINGTON, Feb. 10th.-The Legisla ture of Eastern Virginia has adjourned sine die. No Senatar was elected to fill the vacancy occasioned by the death of Senator Bowden, but it is believed that the action of the convention will make an extra session necessary, in which an election for Senator will be held.

FROM RICHMOND.

New York, Feb. 11th .- In the rebe House of Representatives, January 30th. an important debate occurred on the ques tion of conscription. Mr. Smith, of North Carolina, stated that the strength of the rebel army was 300,000 men, whom the country was unable to feed.

Mr. Chambers, of Virginia, said we could feed double that number; if not, the sooner we make terms of peace with Lincoln the better. Everybody expected next spring will be the heaviest and most decisive campaign that will occur.

Mr. Goode, of Virginia, said his State could not stand another draft. This was the opinion of all the enrolling officers who recently assembled at Richmond.

Mr. Holcombe, of Virginia, thought the weak point of the Federals was their finances, and the policy of the South was men and starvation will be the inevitable result. Other speeches were made and the bill under discussion passed, 41 against 31. It amends the Conscription law so as to exempt farmers and planters on condition of their giving an additional tenth of their supplies for the use of the army.

The expedition organized at Vicksburg, is thought by those who should know, to be directed against Mobile. The capture of that city would give Grant, if he advances to Rome, Ga., communication with the Gulf by the Coosa and Alabama rivers steamers, which ascend to within three miles of Rome.

This Damper is put into the stove-pipe, at the first or second joint of pipe, and is so constructed that the draft can be wholly or partly stopped, by turning the Damper, and at the same time will allow the smoke and gas to pass freely, and the heat is retained in the store.

By the use of these Dampers, a store will last one-quarter longer, for the reason that the heat is thrown equally to all parts of the store, which prevents the store cracking; while without the Damper, the blaze strikes some parts of the store and heats it so that it will warp and cruck in a short time, and this can be saved by the use of pace of these Dampers.

You can also keep fire all night, and have phorty of coals to build a fire from in the moraling; this, alone, in one whiter, is worth two or three times the price of a Damper.

Don't Fail to Procure one of Verbeck de Walker's Dampers,

And after using one a few days, you would not de without it for ten times the price. The price is noth ing compared with the fuel it will save in one winter.

TRY ONE AND SEE! Our Dampers are warranted never to get out of re-pair, and will last a life-time.

Editorial Correspondence. February 10, 1864. The Milwaukee News is naturally in fayor of a change in the manner of electing Judges of our Supreme Court. It as serts that "the bar and the people of Wisconsin have become thoroughly disgusted with our system of elective judiciary.' The statement may be true with regard to the bar, but we must beg to be excused from believing that the people are disgusted with their liberty in this respect, and are anxious to be relieved of it. change in the system is attempted. Neither is it true, as the News asserts that every Judge must necessarily be politician. The present Chief Justice only lacked eight votes of a nomination in Democratic State Convention called espe cially to nominate a democratic candidate for that position. The writer hereof stood within a few feet of E. G. Ryan when he declared in that Convention that Luther S. Dixon was as good a democrat as himself. Afterwards Dixon was taken up by the Republicans and elected. Now, here is one instance at least where a man was so Little of a politician that neither side knew exactly which side he was on! In this printed sheet it is said that the government of Panumyra (Panama) in the Indies, wrote to his majesty (Charles V.) that a vessel had arrived from Peru, with a letter from the regent Francisco Piscara, (Pizarro,) announcing that he had taken possession of the country; that with about two hundred Spaniards, infantry and cavalry, he had repaired to the possession of a great signor, named Cassiko, who refuspeace, and attacked thim, and the iards were the victors and that he had seized upon five thousand Castillanes (gold and lastly, that he had obtained two millions of gold pieces from the said Cassiko,

A THEATRICAL INCIDENT .- During a recent performance at one of the Paris theatres, a man and his wife had to quarrel on the stuge, the woman in a rage of jealousy, the man trying to persuade her that she was too suspicious and too passionate; both were acting with great spirit, when the wife moved her arm too near a candle, and her muslin dress was in flames in an instant. Both actors kept their head, however; the husband extinguished the fire, and, proceeding with his part, interpolatad, "You see, my dear, I was right; you are ready to flare up-rous enflammer -for the least thing."

EUROPEAN ROYALTY .- The London Spectator has a curious article on European toyalty. The total number of European sovereigns—excluding the non-hereditary Pope and the semi-Asiatic Sultan-amounted, on the 1st of January of the present year, to exactly thirty-nine. Of this number, no fewer than thirty are of direct German origin, that is, born and bred in Germany, while of the remaining nine, there are four of German descent. The only five non-German sovereigns of Europe, the rulers of France, Italy, Portugal, Spain, and Sweden, are, however, more or less closely related to German families.

HARVARD .- The Board of Overseers of Harvard College have raised the tuition to one hundred and four dollars a year. They have appointed a committee to consider the subject of having Freshmon, and another to see what methods can be taken to give a truly university character to the theoogical department by inviting all Christian denominations in the State to endow professorships therein, to be filled by suitable men among themselves."

-The Commissioner of the General Land Office has received a number of specimens of gold and silver quartz from Oro Finia Leads, on a branch of the Owyhee River, in Idaho Territory. The lead from which the specimens were taken is described as averaging six feet in width, and has been prospected for nearly six miles. It is represented as being fully as rich as the far-famed Washoe mines.

FROM MADISON. Editorial Correspondence.

February 10, 1864. The Milwaukee News is naturally in favor of a change in the manner of electing Judges of our Supreme Court. It as serts that "the bar and the people of Wisconsin have become thoroughly disgusted with our system of elective judiciary." The statement may be true with regard to the bar, but we must beg to be excused. from believing that the people are disgusted with their liberty in this respect, and are anxious to be relieved of it. It is not true, and the News will find it out when a change in the system is attempted.

Neither is it true, as the News asserts, that every Judge must necessarily be a politician. The present Chief Justice only lacked eight votes of a nomination in a Democratic State Convention called especiully to nominate a democratic candidate for that position. The writer hereof stood within a few feet of E. G. Ryan when he declared in that Convention that Luther S. Dixon was as good a democrat as himself. Afterwards Dixon was taken up by the Republicans and elected. Now, here is one instance at least where a man was so little of a politician that neither side knew exactly which side he was on! The argument which the News employs against the election of Supreme Judges, is much more forcible and pertinent when urged against the election of our Circuit Judges by the people. It might be carried a step farther and applied to Justices of the Peace. The News is (for once) greatly in love with a custom that prevails in some of the New England States, to wit: to elect the Judges of the Supreme Court by a joint convention of the Legislature, or, in other words, is in favor of trusting a few of the people to do what the mass of them are incompetent to perform. We beg the News to remember, also, that this elective judiciary system is eminently a democratic measure ceratic people who gave it their sanction. But the real objection which our metro-

apprehend, he obviated by taking an appower. It sees a certain class of judges walking the plank into political obscurity as fast as the people can reach them, and signs of the times calculated to inspire new lope in the breasts of these discarded judges, even by a return to the former usage in such cases made and provided. The people who choose the Governor would not consent that the servent whom they have elected to do their business and guard their right, should be guilty of appointing and whose prayer is "peace" on earth, an unsound or unfaithful judge; and so the sting which the so-called democracy of of to-day find in an elective judiciary, cannot be extracted by a return to the old practice. As to the objections which the North, with no contention, for the lamb lawyers urge against the present system. they might be easily obviated if the Bar Counts, Lords, and Barons, representing would furnish the people with better ma- the royal courts of the Kingdoms and Emterial out of which to manufacture judges.

Legislative matters begin to move for-The visiting committees to the various be- tutives of aristocracy, the customs of our Costigan, (Dem) of Waukesha county is the passing over the intermediate classes, we sand." sitting member and J. A commission appointed Dixie, "de land ob cotton" and oppresby this House has taken the testimony in sion, hoping to find rest and freedom in the case, which appeared upon the Assembly Journal of this morning. Mr. Cady seems to rest his case upon the claim that the poll held in the town of Menomonee at which his opponent got a majority of over seventy votes, was not authorized nor con- tended notice than my present space will ducted according to law. The Senate passed the following bills To repeal chapter 213 of the general laws of 1862, "to prohibiteertain kinds of tishing in Door county." To amend chapter 158 of revised statutes, "of the writ of hebens corpus." To amend chapter 67 of the general laws of 1863, "to amend chapter 117 of the revised statutes, of county courts, and to amend chapter 14 of the general laws of 1863," to repeal chapter 305 of the general laws of 1861, "increasing jurisdiction of Polk county." To legalize and provide for the collection of a special town bounty tax in Springfield, Dane county. Relative to subpœnas is-sued by Justices of the Peace. To vacate Short's addition to the village of River Falls. To appropriate Jermain & Brightman \$10. To amend the act incorporating the city of Racine. To extend the time for the collection of taxes in Prairie du Chien.

A. M. T. LETTER FROM WASHINGTON. WASHINGTON, Feb. 8, 1883. Visitors or sojourners at the Federal Capital have an opportunity to see the world in a nut shell. Almost every nation, society, croad, caste, color, profession, custom and condition of earth have here intermingling in such relations as to produce a social combination, unlike that of any other American city. Go to the Before the play, between the acts, and afchurches, the theaters, the receptions, and other public assemblies; the styles of dress. the conduct and manners of the attendants, are as various as the nations, localities and conditions they represent. Every one, no matter how dressed, is in "fashion," and no one can be out of fashion, for what constitutes the occuliar feature of Washington style, is "endless variety." In this respect, it is a good place to visit, or reside. In preparing your wardrobe for a trip to the Capital, don't be particular about consulting the "fashion plates." Frank Leslie and Madam Demorest, although admitted to seats, are not recognized of the audience and was in keeping with ed as authority, or entitled to more credit the vulgarity of the "dress circle." than Madam De la Baume, of Paris, or Miss Reynolds of Janesville. It is a convenient place to live in these times of exorbitant prices, for you can wear out your old clothes, or those which "fashion" compelled you to 'doff" in the town or city you left, where everybody was obliged to dress on the 'mould candle" principle, or be counted a "recluse," a "wall flower," or strongly racy. suspected of incipient bankruptcy in purse, or brain. "Endless Variety" does not stop with dress. Here is the President, he in the broadest and best sense of that term. on whom the eyes of all nations are turnand that it was a Democratic Convention ed, anxiously watching him at the helm of which framed the Constitution, and a Dem- Government, steering the Ship of State through the most stormy period of its history, acknowledged by the world as one politan cotemporary and his party have to of the best and noblest mon that ever an elective judiciary system, will not, we wielded executive power. He is seen as often as most of our citizens at church, in peal from the ballot-box to the appointing the theatre, in the street, and at the Leeture hall, and never makes his appearance in a public assemblage, (the church excented) without drawing from the crowd there is nothing that we can see in the the biggest kind of thundering applause. There are Cabinet Ministers, also, the Staff, and aid-de-eamp, of the Commander in chief. A THEATRICAL INCIDENT .- During a recent performance at one of the Paris theatres, a man and his wife had to quarrel on the stage, the woman in a rage of jealousy, the man trying to persuade her that she was too suspicious and too passionate; both were acting with great spirit, when the wife moved her arm too near a candle, and her muslin dress was in flames in an instant. Both actors kept their head, however; the husband extinguished the polatad, "You see, my dear, I was right; est insults, and most wanton neglect. The you are ready to flare up-vous enflammer

The total number of European sovereigns -- excluding the non-hereditary Pope and the senti-Asiatic Sultan—amount-ed, on the 1st of January of the present year, to exactly thirty-nine. Of this num-ber, no fewer than thirty are of direct German origin, that is, born and bred in Germany, while of the remaining nine, there are four of German descent. The only five non-German sovereigns of Europe, the rulers of France, Italy, Portugal, Spain, and Sweden, are, however, more or less closely related to German families.

HARVARD .- The Board of Overseers of Harvard College have raised the tuition to one hundred and four dollars a year. They these we have and more. As the vulture have appointed a committee to consider the subject of having Freshmen, and another to see what methods can be taken to give a truly university character to the theological department by inviting all Christian denominations in the State to endow professorships therein, to be filled by suitable men among themselves."

> -The Commissioner of the General Land Office has received a number of specimens of gold and silver quartz from Oro Finia Leads, on a branch of the Owyhee River, in Idaho Territory. The lead from which the specimens were taken is described as averaging six feet in width, and has been prospected for nearly six miles. It is represented as being fully as rich as the far-famed Washoe mines.

THE FLORIDA AND KERSAGE.—La France states that the Florida has challenged the Kearsage to fight a fair fight, which the latter having accepted, they intend to go a few miles out to sea and settle their differences at cannon range. The Florida is about ready for sea, and some of her offi cers who have been some time in Paris, in plain citizens clothes, have mounted their uniforms.

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRELLI

AS MADE BY

R. J. RICHARDSON,

The feeding principle of the new Drill is the same as

the old, but the working arrangement is quite different,

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by

experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill .nade.

The frames are made of summer seasoned white ask

from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works

of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsbuargh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick

& Co. The felloes are from the Chic State Prison, lo

orted at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself

To those who know the old Drill it is only necessary to say that the Badger is like it—only hetter. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter drift and easier for the team than

That fi will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

That the Baiger is warranted to perform, in a good and workmanlike manner, all that is required of any Brill. If, on trial, it does not perform, it can be re-

turned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all

kinds of material, the Badger must be sold at advanced prices over inst year.
